

Guided Tour of Georgetown College

On September first I went to Georgetown College for an official overnight stay. I have verbally committed there to play softball for their team. I went down with my parents and my coach had the two other recruits come down also. He wanted us to watch a football game so when we went down that's what we did, we watched the game. They have a really nice field and the team is good which is nice. My parents had to leave the game because it was getting late and they had work in the morning. I sat with the rest of the softball team and the two other recruits; after the game, we all went to Steak 'n Shake. The coach paid for us so we didn't need anything. After dinner we each got assigned a teammate to stay with for the night, but we all ended up staying with the same girl because the recruits and I wanted to stay together. Then we arrived to Chaselyn's dorm and went out to hang out with some of her friends. After that we went back to her dorm and went to sleep. The next morning we had to get up early because we had to go to class with them to experience the college life. Then after that we went to the admissions office where we met up with our parents and had a discussion with the people in the admissions office. Then we all went to the cafeteria and ate. Each of us had a one-on-one conversation with our coach. After we all got done, we had a tour around the school again, went into all the buildings, and they said what building was which. After the tour all the girls went back to Chaselyn's dorm to get ready for practice with the team; our parents would meet us at the softball field. We got there and practiced with the college team and after that we all went back home.
