

## **Wright State Guided Tour**

On my guided tour through Wright State's campus, I learned a whole lot of things. I learned about the super important tunnel system that runs to all but two buildings on the entire campus, excluding the housing. I found out that Wright State also has one of the highest acceptance rates in Ohio, as well as a very lenient application deadline. Wright State has over 200 different majors that you can go for, and it's not mandatory for you to even have a major selected when you apply or go to the college. 80% of students who get accepted end up going as undecided. Wright State also includes a range of activities for all students to enjoy, including a climbing wall and many amenities for food and drinks. These many bonuses on campus, give a lot of students a good opportunity to save money on food, because of Wright State's' Food plan that includes a food card that gets recharged every semester. The campus is absolutely gorgeous, and I can't wait to apply, and hopefully get accepted.
