

Special Education Teachers Daily Tasks and Responsibilities:

As a Special Education Teacher, you must be able to perform the following tasks:

- Provide direct and supportive instructions for a positive environment
- Change or modify the general instructions to their understanding
- Apply activities that will help train their brain to remember, understand, and acknowledge
- Make plans that make them question and observe
- Establish clear points for all lessons, chapters, units and projects to students
- Have the ability to change diapers and move students or equipment weighing 50lbs or more.
- Meet with parents about the child's progress and what they need to do to keep growing for their education needs
