

Miami University

I went to Miami University for my college visit. There are so many new things I got to learned while there. I had such a fun time visiting this beautiful campus.

Goggin Center: This is where people can ice skate and practices can be held for figure skaters along with hockey teams. The men's ice hockey team is a National Collegiate Athletic Association (NCAA) Division I college ice hockey program. Miami is best known for their men's hockey team.

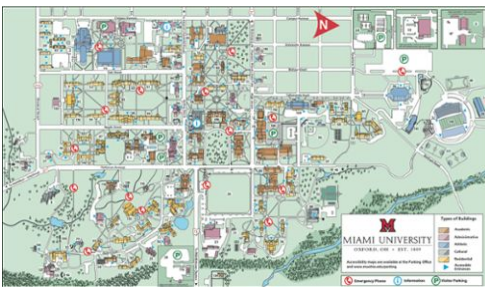

Sororities/Fraternities: There are at least 23 organizations held at Miami. Campus facilities and equipment, tabling, posting and hanging flyers, and holding meetings and/or programs on campus. They always hold fun social events for students at the campus along with charity booths and raising money for good causes.

Dorms: All resident halls are located based on quads. A dorm can have up to three people living in it. Prices vary on what kind of room, how many people, and what building it is in.

Farmers School of Business: Offers one of the world's best undergraduate business educations. They are ranked in the nation's top undergraduate business programs.

Map Of Miami: Everything on campus is in walking distance and students can get there by sidewalk. There is plenty of grass space for fun activities and putting together social events.

Food: There are meal plans where you use a card to pay for your food. You can always check your balance at anytime along with add money.

Staff: Miami encourages more student to teacher time. They want to help students reach their goals and succeed. The student to staff ratio is 17:1.
