

# Psychologist /Counselor

In this picture the lady on the left is counseling the man on the couch. She is his counselor.

Traits you should have as a counselor or psychologist.

## Ways To Advance In This Career

- Continue your education

Many psychologists were already in school for almost a decade after their senior year in high school, so this option might not seem fair, or even necessary. But the American Psychological Association offers online courses.

- **Specialize**

Choosing one area of psychology to master could be your route to separating yourself from the pack.

- **Networking**

The APA's (American Psychological Association) associations bring together psychologists of similar ethnicities.
